

What is **BURGY**?

BURGY, located amidst the tranquil greenery of Bad Harzburg, Germany, is a small but beautiful grammar school with an integrated secondary school and a boarding school. We have small classes with individual support, free after school assistance and caring teachers who guide your children to complete their desired graduation. Your children can achieve their A-Levels as well as the secondary school certificate with us. They can also achieve the Fachhochschulreife (academic graduation). We offer specific classes to support the learning process as sometimes it takes a little longer to understand the course material. We take care and support children and young people with dyslexia. A qualified and motivated team of teachers and educators are looking forward to help your child on their way to achieve their qualification.

We look forward to your call: + 05322 - 96570

Join us here at BURGY Grammar School Bad Harzburg.

We look forward to welcoming you and your child.

BURGY

Grammar School * Secondary School and Boarding School

Private school with all day concept, all degrees are recognized and approved by the state

◆ Education and Childcare

A-Levels, secondary graduation, formal part of university entrance. We ensure that your child acquires a corresponding school graduation depending on their talents and abilities. Small classes allow individual and personal support and create a pleasant learning atmosphere. We also offer specific learning support to achieve the goal.

◆ Social Skills

General education standards and competence-oriented education are vital, but the acquisition of social skills is just as important. Our day-to-day activities reflect our mission to educate the children to become self-reliant, self-confident, critical and tolerant individuals who maintain respectful interaction with each other.

◆ Special School Support

Sometimes it takes a little longer to understand learning materials. Targeted support in individual subjects after regular classes helps to reduce deficits. We call this "First Aid".

◆ Dyslexia; ADHS; Asperger Autism

The proportion of young people with these illnesses have increased rapidly. Parents and young people affected often suffer and find that the school situation causes additional massive mental stress. If you suffer from Dyslexia, we offer qualified therapy in combination with sympathetic teachers and approved learning process to balance performance and optimize confidence within their own strengths. Young people, who are affected by ADHD or Asperger Autism, get the same chance and opportunities than others.

◆ International Students

We encourage young people from other countries to study towards their desired school qualification or abitur. During this time, the students are accommodated and supervised in our boarding school.

*Join us and pass your Abitur (A-Levels)
...or your secondary school graduation.*
